

COMPANY PROFILE

COMPANY BACKGROUND

Control Seal ranks among the worlds leading manufacturers of Rising Stem Ball Valves and Double Block and Bleed Valves. The present success of the company is based on several key features:

- 110 years of engineering expertise
- 35 years of valve manufacturing
- Flexibility to adapt requirements
- Worldwide experience
- Strong commitment to customer
- Capable to deliver complete packages

CERTIFICATION

The certifications are based on both customers and government legislation requirements. Through the years Control Seal has acquired the following certifications and more:

WORLDWIDE EXPERIENCE

QUALITY

- Made in Europe
- High precision engineering, machining and testing
- 3D measuring tools
- 100% 3D quality testing
- 100% quality inspection on all parts
- High pressure testing
- Fireproof testing
- Cryogenic testing
- Sand&Slurry testing
- Fugitive emissions testing
- Own R&D laboratory
- Continuous development based on field experience
- Reliability of products proven in field

NON CONTACT RISING STEM BALL VALVE

Size	1" ~ 36"
Bore	Reduced / full (piggable)
Pressure	150# ~ 2500#
Temperature	-196°C ~ 538°C
Connections	Wide choice on request
Materials	Wide choice on request

On/Off metal-to-metal ball valve

Long life under extreme conditions

Molecular Sieve
Hydrogen service (NACE)
Sand and slurry applications
Emergency blow/shut down
Cryogenic service
Petrochemical
Hot oil installations
Steam service

DOUBLE BLOCK AND BLEED DUAL EXPANDING PLUG VALVE

Size	1" ~ 42" (up to unlimited)
Bore	Reduced / full (piggable)
Pressure	150# ~ 2500#
Temperature	-196°C ~ 250°C
Connections	Wide choice on request
Materials	Wide choice on request

On/Off non-lubricated plug valve

Provable zero leakage

Airport fueling systems
Metering systems for gas and oil
Tank storage
Fuel loading services
Multi-product manifolds
Transport pipelines
Hydrocarbon services

AXIAL FLOW VALVE

Size	1" ~ 48"
Bore	Full (not piggable)
Pressure	150# ~ 2500#
Temperature	-196°C ~ 538°C
Connections	Wide choice on request
Materials	Wide choice on request

Axial flow control valve

Precise control Compact design

Control valve
Choke valve (Joule Thompson Isolation (On/Off))

Oil and gas production and transmission, distribution, storage
Process industries
Water supply

FOUR WAY DIVERTER VALVE

Size	1" ~ 24"
Bore	Reduced / full (piggable)
Pressure	150# ~ 900#
Temperature	-196°C ~ 250°C
Connections	Wide choice on request
Materials	Wide choice on request

Divertor plug valve

Space reduction Fast operation

Airport fuelling systems
Metering systems for gas and oil
Tank storage
Fuel loading services
Multi-product manifolds
Transport pipelines
Hydrocarbon services

SUPPORT AND SERVICE

Control Seal provides worldwide customer support.

- Customer assistance
- Commissioning
- Preventive maintenance
- Service
- Spare parts
- Trainings
- Valve overhaul
- Additional services
